

In order to work concrete floors to a smooth true finish, these tools will grind away any imperfections to give the results you want.

- Floor grinders have twin heads for double productivity.
- Heavy duty gearboxes to ensure high productivity and reliability.
- Can be fitted with carborundum blocks, wire brushes and diamond blocks secured by wooden wedges.
- A vacuum can be attached for dust free operation.
- Also useful for removal of old coatings, oil, dirt, ice deposits etc.
