

**MORTIMER VIBROLL 71
ELECTRIC START SINGLE DRUM
PEDESTRIAN ROLLER**

The Mortimer 71 is a single drum vibrating roller, compact in design, reliable, light to handle and produces a high compaction output.

The Mortimer 71 roller is suitable for the compaction of sub-bases and bituminous materials used in footpaths, forecourts, general reinstatements and highway construction with the HAUC code of practice.

The Mortimer 71 is available in standard or roller breaker format.
